# Welcome to our 23rd Annual On-Property Bull Sale!

What an amazing past 12mths we have had! Overall world shortages of high-quality proteins and drought recovery has been the perfect combination for high sustained beef prices. It certainly doesn't appear that there will be any corrections as the fight between re-stockers, processors, supermarket chains and exporters look to continue. The demand of branded product domestically and internationally has seen huge growth as the consumer has become more aware of the quality of the food they purchase. The demand for Angus cattle is at an all-time high with the premiums now more evident than ever. Those who have invested wisely in genetics combined with performance are certainly now reaping the benefits.

This year's sale includes 50 Spring two-year-old, and 20 Autumn drop 2021 young sires. The genetic offering has included several new sire lines in our continual effort to offer our clientele different bloodlines to add to their existing programs. Included are a selection of bulls by our own home bred sires which has proved to be a huge benefit as the overall consistency is more than evident.

## **2022 SIRES**

For those that are unfamiliar with the Booragul Stud program our main sire lines are almost all Australian Bred Bulls. We have found that they are consistently reliable with breeding a type of Angus more suited for the Australian environment and meeting feedlot specifications.

### **KAROO REALIST N278**

We were fortunate to be able to obtain some of the first semen released in this exciting new sire. His 15 sons we have catalogued will be among some of the first ever to be offered for sale. He has left us a line of progeny which are all highly functional cattle, extremely even and true to type with exceptional docility. You will see by his data his consistency with high accuracies across all traits is most impressive from light birth, above breed average for growth, high carcass weight, positive fat with excellent IMF. We look forward to his daughters coming into full production later this year.

### **BOORAGUL KING N205**

N205 needs little introduction being a son of one of the breed's number one carcass sires Bowmont King. Typically, of his sire he has that high carcass weight, extra-large EMA, top 3% RBY and top 25% IMF. His dam J23 has been one of our elite donor cows for many years featuring a pedigree of Te Mania Bartel and BT Ultravox.

### **INGLEBRAE FARMS NOBLEMAN N6**

Bought in conjunction with Knowla Livestock, Nobleman was selected for his strong maternal traits from light birth, above breed average growth with an excellent docility. His carcass data has remained strong being in the top 10% of the breed for EMA whilst adding positive fat to our herd and above breed average for IMF. We have 14 sons catalogued with some superb heifer bull prospects whilst retaining that strong carcass trait.

### **PATHFINDER MAGNUM M778**

Another new out cross sire to the program, principally introduced as an AI sire over heifers. He will feature with 6 lots in this year's sale. These young sires represent excellent calving ease, above breed average for growth, dominated by a high milk figure and high-quality carcass data.

Other sires represented are Topbos Leading Edge, Wattletop Lock, Booragul Revenue M4, Dulverton Nothin Leica Dane, Booragul King P30 and Booragul Momentous Q70. Further details of Reference Sires are located in the back of the catalogue.

**A FULL LISTING OF ALL REFERENCE SIRES AND PHOTOS** is available on our website.

## **HEIFER BULL SELECTION**

You will note throughout the catalogue I refer in the comments of bulls suitable for heifers. It has always been a policy of ours to select bulls for our heifers that would also be used over our general cow herd. When selecting a heifer bull, birth weight is one of many factors we consider. I believe other equally important factors are calving ease, gestation length, pedigree and confirmation. Considering these traits, it doesn't bother us to use bulls with a birth weight above breed average, providing the heifers are well grown and nutritionally managed from joining to calving.

# SALE INFORMATION

## SALE DAY ATTENDANCE

All bulls will be sold through the sale ring in conjunction with online bidding through Auctions Plus. We will be practicing social distancing on the day with hand sanitiser and washing facilities available.

## ALTERNATE BUYING OPTIONS

If you do not wish to attend but still want to bid, the following methods are available:

1. Auctions Plus- please ensure your registration is completed prior to the sale.
2. Engage your local agent to bid on your behalf
3. Contact the selling agent Elders, to take advantage of phone bidding.

## PRE-SALE REGISTRATION

Pre-Sale Registration is available on our website. This year we would appreciate as many as possible to complete this 24hrs prior to the sale to endeavour to reduce the amount of time/crowding spent around the registration desk on the day. By using this service your bid card will be ready and waiting to pick up.

L-R: Hayden, Margaret, Tim & Amy Vincent

## PREPARATION

With an excellent summer rainfall our pasture growth has been fantastic. All bulls have grazed on sub-tropical grass, Lucerne and Liver seed from summer through autumn and are now on winter Oats and grazing Barley, supplemented with Oaten Hay and Straw.

## PINK EYE

You will notice a few bulls carrying old pink eye scars. I have rigorously inspected and worked every bull to ensure strong vision before being entered for sale. If you have any concerns regards this, please feel free to talk to me.

## PHOTOS AND VIDEO

Photos and videos were taken from late May until mid-June. We have taken photos of all bulls and up to 30 individual videos which are available on our website and Auctions Plus. If you would like any further images of any particular lots please contact me.

# SALE DAY SAFETY

## • PLEASE READ •

**Visitors enter pens at their own risk. Children under 16 are not permitted to enter pens.**

At Booragul all care is taken to ensure livestock pose minimum threat to our clients, our staff and us. However, we cannot predict nor guarantee their behaviour.

All the Sale bulls have been assessed for temperament and are quiet to handle under normal circumstances.

Unfortunately sale day places abnormal pressure on bulls as they are not used to having a crowd of people around them, and so the behaviour of even the quietest bull can be unpredictable. With this in mind, we please ask that while inspecting the sale bulls you treat them with respect and don't over crowd them.

Bulls may also fight in the pens and at these times they are oblivious to people who may be in the way.

# SALE INFORMATION

## **REBATE/GST**

2% rebate to outside agents introducing buyers in writing 24 hours prior to the sale, attending on sale day and settling account within 7 days. Prices for lots sold will be GST exclusive at the fall of the hammer and 10% will be added at time of invoice.

## **HEALTH**

All bulls have been vaccinated for Vibrio, 7 in 1, Pestivirus, drenched and backlined. They have been tested free of Pestivirus. Booragul Angus Stud is located in a Bovine Johne's Disease protected clean area. Booragul Angus is JBas7. All sale bulls have been sire verified.

## **FERTILITY**

All bulls have passed a crush side semen test performed by Northern Artificial Breeders on 3rd June 2022.

## **INSURANCE**

There is no vendor insurance on the bulls. It is the responsibility of the purchaser to insure their bulls. We will have information available on sale day to offer immediate cover.

## **INSPECTION**

We are treating every day as an inspection day please feel free to contact myself or your agent to arrange a suitable time. We are also holding an Open Day during Beef Week on Wednesday 22nd June.

## **CATERING**

Catering will be provided.

## **AIR STRIP**

A sealed air strip is available 1km from our sale location "Downfield". Should you wish to use this please contact the vendor.

We were fortunate to be able to obtain some of the first semen released in this exciting new sire. His 15 sons we have catalogued will be among some of the first ever to be offered for sale. He has left us a line of progeny which are all highly functional cattle, extremely even and true to type with exceptional docility. You will see by his data his consistency with high accuracies across all traits is most impressive from light birth, above breed average for growth, high carcase weight, positive fat with excellent IMF. We look forward to his daughters coming into full production later this year.

### Traits Observed:

GL,BWT,200WT, 400WT,600WT,SC,Scan(EMA,Rib,Rump,IMF), Genomics

Bought in conjunction with Knowla Livestock, Nobleman was selected for his strong maternal traits from light birth, above breed average growth with an excellent docility. His carcase data has remained strong being in the top 10% of the breed for EMA whilst adding positive fat to our herd and above breed average for IMF.

We have 14 sons catalogued with some superb heifer bull prospects whilst retaining that strong carcase trait.

N205 needs little introduction being a son of one of the breed's number one carcass sires Bowmont King. Typically of his sire he has that high carcass weight, extra large EMA, top 3% RBV and top 25% IMF. His dam J23 has been one of our elite donor cows for many years featuring a pedigree of Te Mania Bartel and BT Ultravox.

# DISCLAIMER AND PRIVACY INFORMATION

## Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

## Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

# : DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

## Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

### BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following ids.....

from member.....(name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name: ..... Signature: .....

Date: .....

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350.

If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email [office@angusaustralia.com.au](mailto:office@angusaustralia.com.au)
