Australia's Livestock Marketplace

Booragul Angus Bull Sale Buyer
Pre-Registration Form

Welcome to our 26th Annual On-Property Bull Sale!

Last year we celebrated two significant milestones, marking our 25th Annual Bull Sale, as well as our 40th Anniversary of the registration prefix "Booragul Angus". An achievement we are certainly proud of, from the humble beginnings of purchasing original cows from Calleen Angus to what we are today. Throughout this time, we have been privileged to be part of the success of the Angus breed not only in Australia but also globally and excited for what the future may hold.

Recently Angus Australia hosted the 2025 World Angus Forum the first time it has been held in Australia for 27 years and boy did they set the bar high for those to follow. We were heavily involved in the Tamworth Expo component held at ALEC which saw some 4000 people pass through the gate, it was certainly the pinnacle event of the Forum. Part of the two-day expo involved the pen of 3 competition of which we placed second in the Senior Bull Class. This group of bulls (Lots 2,3 & 4) created a huge amount of interest amongst the crowd. Following this amazing event, it left us feeling incredibly confident for future of our breed.

From our initial beginnings our aims and objectives have been clear. We focus on offering a diverse range of genetics with selected pedigrees that have a strong history of maternal and carcase traits.

The main sire lines of the Booragul herd have been traditionally Australian Bred Sires. We have found that they are consistently reliable with breeding a type of Angus more suited for the Australian environment and meeting feedlot specifications.

DATA COLLECTION

The Booragul program has a strong focus to keep at the forefront of innovative technologies that offer increased accuracy of data to remove all the guess work when it comes to sire selection. All progenies born at Booragul are Genomic tested, DNA tested, raw data scanned and assessed on docility. Most importantly we are constantly assessing progeny for performance and structure from birth to sale to offer a sale team that is solidly backed by performance along with our pedigree selections. When we select our sires, we will not consider one that hasn't had genomics and raw data information submitted.

HEIFER BULL SELECTION

You will note throughout the catalogue I refer in the comments of bulls suitable for heifers. It has always been a policy of ours to select bulls for our heifers that would also be used over our general cow herd. When selecting a heifer bull, birth weight is one of many factors we consider. I believe other equally important factors are calving ease, gestation length, pedigree and confirmation. Considering these traits, it doesn't bother us to use bulls with a birth weight above breed average, providing the heifers are well grown and nutritionally managed from joining to calving.

PREPARATION

From Spring 2024 our bulls were grazed on forage sorghum, lucerne and subtropical grasses and with the odd feed gap occurring the addition of silage has been used. From early June they have been grazing on forage oats and dry hay as supplement.

PINK EYE

You will notice a few bulls carrying old pink eye scars. I have rigorously inspected and worked every bull to ensure strong vision before being entered for sale. If you have any concerns regards this, please feel free to talk to me.

PHOTOS AND VIDEO

Photos and videos were taken early June.. We have taken photos and videos of all bulls which are available on our website and AuctionsPlus. If you would like any further images of any particular lots, please contact me.

SALE INFORMATION

ALTERNATE BUYING OPTIONS

If you do not wish to attend but still want to bid, the following methods are available:

1. Auctions Plus- please ensure your registration is completed prior to the sale.
2. Engage your local agent to bid on your behalf
3. Contact the selling agent Elders, to take advantage of phone bidding.

Refer to front page of catalogue for all contact details.

PRE-SALE REGISTRATION

Pre-Sale Registration is available by scanning the link or by going to our website.

REBATE/GST

2% rebate to outside agents introducing buyers in writing 24 hours prior to the sale, attending on sale day and settling account within 7 days. Prices for lots sold will be GST exclusive at the fall of the hammer and 10% will be added at time of invoice.

HEALTH

All bulls have been vaccinated for Vibrio, 7 in 1 and Pestivirus. They have also been drenched and backlined. They have been tested free of Pestivirus. Booragul Angus Stud is located in a Bovine Johne's Disease protected clean area. Booragul Angus is JBas7.

FERTILITY

All bulls have passed a Veterinary Breeding Soundness Evaluation done by Dr Rhys Duncan Piper Street Veterinary Clinic on 19/5/25, with individual certificates available. This included a crush side semen test, scrotal measurement and palpation and a full physical and reproductive evaluation.

INSURANCE

There is no vendor insurance on the bulls. It is the responsibility of the purchaser to insure their bulls. We will have information available on sale day to offer immediate cover.

INSPECTION

We are treating every day as an inspection day please feel free to contact myself or your agent to arrange a suitable time. We are also holding an Open Day on Thursday 26th June.

CATERING

Catering will be provided.

AIR STRIP

A sealed air strip is available 1km from our sale location "Downfield". Should you wish to use this please contact the vendor.

REFERENCE SIRES

Landfall New Ground N90

After inspecting a lot of N90 progeny it was a no brainer to use his genetics throughout our herd. They are highly maternal cattle with a consistent set of data for growth, carcase and \$indexes. Looking forward to the daughters coming into production later this year.

Mandayen Reebok R442

A new sire line for our 2025 sale. Our Reebok progeny are born light and have explosive growth, large spring of rib and are strong boned. Ideally used for heavy supermarket trade cattle.

Sterling Confidence Plus 804

The first progeny from US sire Confidence Plus to be offered in our 2025 sale. He was selected to be used as an AI sire over heifers however we are now using him throughout the general cow herd. His progeny are extremely early born and light with explosive growth in the top 13% of the breed for 400-day weight combined with a large EMA and high positive rib and rump fat. One of his lead progenies will be Lot 6 in this year's sale.

Te Mania Qontemplate Q1149

This year's sale we have a strong offering of 6 sons of Qontemplate Q1149, our resident sire. He has given us a line of top end sires very suited for heavy feeder steer production. He is leaving a lot of positive fat with an excellent IMF of +4.2.

Dunoon Prime Minister P758

Prime Minister is one of the most influential sires of the modern era. His ability to breed big upstanding cattle with plenty of weight whilst not sacrificing fertility and strong carcase traits is unrivalled.

A FULL LISTING OF ALL REFERENCE SIRES AND PHOTOS is available on our website.

Landfall New Ground N90

Mandayan Reebok R442

Moogenilla Quinella Q33

SALE DAY SAFETY

• PLEASE READ •

Visitors enter pens at their own risk. Children under 16 are not permitted to enter pens.

At Booragul all care is taken to ensure livestock pose minimum threat to our clients, our staff and us. However, we cannot predict nor guarantee their behaviour.

All the Sale bulls have been assessed for temperament and are quiet to handle under normal circumstances.

Unfortunately sale day places abnormal pressure on bulls as they are not used to having a crowd of people around them, and so the behaviour of even the quietest bull can be unpredictable. With this in mind, we please ask that while inspecting the sale bulls you treat them with respect and don't over crowd them.

Bulls may also fight in the pens and at these times they are oblivious to people who may be in the way.

Notes: To kick off our sale we have a powerful Prime Minister son, we have used twice with progeny on the ground and more expected in the Spring. I would describe him as a 'dollars in pockets' sire with explosive growth, larger scrotal, top 20% CWT, EMA and RBV combined with excellent milk and docility. We selected to use U31 due to his strong pedigree featuring Bronc and Wattletop E111 on the Dam side. Not suitable for heifers.

Notes: I just love the bone structure and presence of this young sire. He was a part of our award winning World Angus Forum team who certainly created a lot of interest. U196 is from the same dam as last year's top price bull Booragul Quinella T75 selling to Karoo Angus for \$75,000. He has an extremely even set of data from below average BWT, above average growth, excellent docility, positive fats and top 30% IMF. This young sire is hard to fault.

RUMEVITE GROW & SHOW DRYFEED

"PREPARE YOUR STUD CATTLE PROPERLY"

Rumevite Grow & Show Dry Feed is a pelleted grain ration for the preparation of stud cattle for show and sale when fed with mature dry pasture or low protein hay

- Palatable grain ration presented as a pellet
- Customised ingredients suitable for preparing stud cattle
- Appropriate level of bypass protein
- Balanced levels of calcium, phosphorous, trace minerals and vitamins
- Contains added fats & oils to enhance coat shine
- Contains Rumensin® to improve growth rates and feed conversion efficiency
- Contains Acid Buf®, a natural rumen buffer

Available in: 20kg, Bulk Bags and Bulk

For more information please contact your local Ridley Territory Manager:

- **Peter Mooney** on **0428 234 292**
- **Tim Brown** on **0408 667 129**

Traits Observed:
BWT,200WT,600WT,SC,S-can(EMA,Rib,Rump,IM-F),DOC,Genomics

Notes: J113 has certainly developed into one the matriarch of the Dandaloo family and consistently delivers regardless of the sire involved. Her combination here over Qon-template has produced a high growth bull with excellent milk and docility, positive fat and above average IMF. Suitable for heavy feeders.

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350
